**Re: The Narragansett Electric Company d/b/a National Grid
Q-143 and R-144 115kV Underground
Transmission Line Reconductoring Project
Providence, RI**

Dear Mr. Watson:

Pursuant to Section 42-98-8 of the General Laws of the State of Rhode Island ("Energy Facility Siting Act") and Section 1.6 (f) of the Rules of Practice and Procedure of the Energy Facility Siting Board ("Rules"), I hereby notify you that the Notice of Intent for the reconductoring of an existing major energy facility as described in the application filed with the Energy Facility Siting Board ("EFSB") by Narragansett Electric Company d/b/a National Grid is docketed as of November 1, 2019 and assigned Docket Number SB-2019-05. This letter shall constitute written notice of the docketing date as required by Rule 1.7(b) of the Rules.

As required by Rule 1.6, provides for an abbreviated application, a public hearing in Providence and a determination within sixty (60) days of the filing as to "whether the project may result in a significant impact on the environment or the public health, safety and welfare," thereby requiring the full EFSB review.

Should you have any questions, do not hesitate to call me at 780-2108.

Sincerely,

Kathleen Mignanelli
EFSB Coordinator
